The Council for the Development of Social Science Research in Africa (CODESRIA) is an independent organisation whose principal objectives are facilitating research, promoting research-based publishing and creating multiple forums geared towards the exchange of views and information among African researchers. It challenges the fragmentation of research through the creation of thematic research networks that cut across linguistic and regional boundaries.

CODESRIA publishes a quarterly journal, *Africa Development*, the longest standing Africa-based social science journal; *Afrika Zamani*, a journal of history; the *African Sociological Review*, *African Journal of International Affairs (AJIA)*, *Africa Review of Books and Identity, Culture and Politics: An Afro-Asian Dialogue*. It co-publishes the *Journal of Higher Education in Africa* and *Africa Media Review*. Research results and other activities of the institution are disseminated through 'Working Papers', 'Monograph Series', 'CODESRIA Book Series', and the *CODESRIA Bulletin*.

CODESRIA would like to express its gratitude to African Governments, the Swedish Development Co-operation Agency (SIDA/SAREC), the International Development Research Centre (IDRC), OXFAM GB/I, the MacArthur Foundation, the Carnegie Corporation, the Norwegian Ministry of Foreign Affairs, the Danish Agency for International Development (DANIDA), the French Ministry of Cooperation, the Ford Foundation, the United Nations Development Programme (UNDP), the Rockefeller Foundation, the Prince Claus Fund and the Government of Senegal for support of its research, publication and training activities.

This book is dedicated to the memory of Patrick Bazaara Nyangabyaki, who was part of this project from the start and attended the initial workshop in Gaborone. Sadly, he passed away whilst the project was underway.

May his soul rest in peace.

This project was funded by the Council for the Development of Social Science Research in Africa (CODESRIA), as part of its Comparative Research Network programme. The editors and contributors express sincere gratitude to the following members of staff of CODESRIA for their support during the project: Professor Adebayo Olukoshi, the Executive Director, Professor Francis Nyamnjoh, Head of the Department of Publications and Dissemination (formerly of University of Botswana), Bruno Sonko and Abdou Ndao, Programme Assistants for their excellent administrative and technical help.

Sincere thanks and appreciation go to the Vice Chancellor for his support in organizing the second CODESRIA Workshop at MUST in February and opening the workshop, and Professor Timothy Shaw, Bank of Uganda Chair in Development Studies at MUST who initiated the link between MUST and Botswana and encouraged the embryonic Faculty to be a part of this project.

We thank David Witty, a lecturer in the Faculty, for ably coordinating the February CODESRIA workshop, Mr. Steven Karuhanga (Faculty Administrator), Mr Andrew Ainomugisha and Ms Clare Karooma (M.A Students at MUST) who worked tirelessly with David to ensure that the workshop was a success.

Finally, we thank the various contributors to this project for their involvement, academic input and friendship. Part of the whole rationale behind this project was to bring institutions and people in Africa together and academic links between Botswana and Uganda have now been firmly established—particularly between the University of Botswana and Mbarara University of Science and Technology. MUST's motto is "Succeed we Must". We feel that this has been achieved.
